NOTICE: ABSOLUTELY NO RECORDING ALLOWED AT NSAA CONFERENCES!

NSAA seeks to foster an open and candid exchange of ideas between ski area personnel with its educational seminars. Accordingly, NSAA strictly prohibits any recording – including both audio and visual recording – of any of the sessions, meetings, speakers or individual attendees at NSAA meetings and conferences, notwithstanding local or state laws. It is also NSAA policy that individuals may not attend any session or meeting without being registered for the conference. NSAA meetings and conferences are not public forums. As noted in registration materials, NSAA will seek civil and criminal penalties, as well as damages and attorney’s fees, if a person violates this policy. By registering for any NSAA event, you hereby agree to be bound by these policies.
Tuesday, January 14

NSAA REGISTRATION
7:30 a.m. – 5:30 p.m.
Grand Sierra Ballroom Foyer

GROOMING DISPLAYS (ON-MOUNTAIN)
8:00 a.m. – 1:30 p.m.
Adjacent to the Sun Plaza Deck
Continental breakfast served from 8:00 - 10:00 am on the Sun Plaza Deck.
Sponsors providing insights and expertise on new products and services. If you are a supplier member with a competing product, please ask for permission before attending arrival day sessions.
11:00 a.m. – 1:15 p.m.

WYSSEN AVALANCHE CONTROL:
SECURE SOLUTIONS WITH AVALANCHE TOWERS AND AVALANCHE DETECTION SYSTEMS
Penny Goddard, Project Manager
Eddie Schoen, Project Manager
11:00 a.m. – 12:00 p.m.
Castle Peak
Tried and true Swiss technology can mitigate avalanche hazards with the click of a button. Wyssen avalanche towers have a large effective range on snowpack and can be accessed through an easy to use online platform. Come and learn about Wyssen Towers and other cutting edge avalanche technology at our session.

PRINOTH SNOW GROOMERS:
SUSTAINABILITY MEETS EFFICIENCY
Andreas Muigg, PRINOTH Head of Product Portfolio
11:00 a.m. – 12:00 p.m.
Pyramid Peak
With the implementation of the Stage V clean diesel engines in its snow groomers and the development of the Fleet Management and Snow Measurement modules via the SNOW HOW platform, PRINOTH is more than ever providing its customers work tools to achieve optimal sustainability and efficiency for their grooming operations. Join us for our Arrival Day Program presentation hosted by PRINOTH’s experts to learn how we can contribute to your mountain’s Sustainability Program.

TECHNOALPIN:
MANAGING RESOURCES IN SNOWMAKING
Garrett Will, Sales Manager – West, TechnoAlpin
12:15 p.m. – 1:15 p.m.
Pyramid Peak
This presentation will focus on the resources a ski resort has available, how and why we manage these. The goal is to take a step back and approach a snowmaking system from a different perspective and see how a control software can help you with day to day decisions.

LIFTOPIA:
2019-20 SEASON TRENDS AND DATA
Evan Reece, CEO, Liftopia
12:15 p.m. – 1:15 p.m.
Castle Peak
Liftoopia will take a look at trends and data from the 2019-20 season thus far, and provide more context for how ski areas can understand their ecommerce performance relative to the rest of the continent. In addition, we will take a look at broader ecommerce trends including how to measure return on marketing spend, and better understand Google’s rising cost structure for ecommerce companies.

SNOWSAT MAINTAIN:
THE DIGITAL SOLUTION FOR MAINTENANCE AND YOUR WORKSHOP.
Josh Nelson, SNOWsat & PRO ACADEMY product manager
12:15 p.m. – 1:15 p.m.
Silver Peak
Is the entire vehicle fleet and all my equipment fully operational? What maintenance tasks are upcoming? SNOWsat Maintain answers all your questions about maintenance – digitally. At the same time, you organize and streamline your operating procedures. Get a clear view of everything all the time – on your desktop, laptop, tablet or smart phone. Come learn about SNOWsat Maintain. It’s the perfect digital management tool for your fleet and the workshop.

EXHIBITOR SET-UP
12:00 p.m. – 4:30 p.m.
Grand Sierra Ballroom
Tuesday, January 14

1:00 P.M. – 2:45 P.M.

**FOREST SERVICE & INDUSTRY “SUMMIT” WITH THE CHIEF**

*Vicki Christiansen, Chief, USDA Forest Service*

Emigrant Peak

USDA Forest Service Chief Vicki Christiansen is at the helm of the Forest Service and all 193 million acres that the agency manages. In this session, Chief Christiansen will share her vision of how the Forest Service will meet the challenges of sustaining the health, diversity and productivity of the nation’s forests. She will highlight the benefits anticipated from the “fire funding fix” as well as NEPA process streamlining for ski areas and the recreation sector. Q&A’s with the Chief will follow and present a great opportunity for public land resorts to engage with her on what resorts need our partnership. Over her 36-year career, Chief Christiansen has accumulated a wealth of experience in natural resource and wildland fire management. She served as Deputy Director of Fire and Aviation Management, Deputy Chief for State and Private Forestry, Arizona State Forester, Director of the Arizona Division of Forestry, and Washington State Forester. Public land resort owners and operators should attend this informative session.

1:30 P.M. – 2:45 P.M.

**CONTRACTS – THE DETAILS MAKE THE DIFFERENCE**

*(CLOSED SESSION, SKI AREA PERSONNEL AND INVITED PARTICIPANTS ONLY)*

Moderated by Dave Byrd,
Director of Risk & Regulatory Affairs, NSAA
Thomas Aicher, Principal, Cleary, Shahi & Aicher
John Fagan, Partner, Duane Morris LLP
Mistica Walker, Specialty Claims Adjuster, Safehold Special Risk

**Monument Peak**

Contracts: You may yawn, but they are hugely important. And they impact all manner of resort operations, both winter and summer, mountain operations, lift departments, summer activities, events, contractors, and a wide variety of unique federal and state laws. They are a neglected tool, and in this session, we analyze a wide variety of incidents where contracts could (and should) have been a more valuable tool to protect your resort. And, the idiom “The devil is in the details.” couldn’t be better phrased. Regardless of whether you are signing a contract to purchase a new lift, negotiating for rental equipment, negotiating a third party to run a music festival, hosting a Hollywood film crew, or inviting some contractors to your resort, our examples will underscore this critical part of risk management. Our panel of ASDA attorneys will highlight some key examples in the industry—from risk managers, marketing, to department heads and CFOs, this crosses all departments. (RESORT PERSONNEL AND INVITED PARTICIPANTS ONLY)

**EMPLOYEE FITNESS PROGRAMS: THE ACL STRONG SUCCESS STORY**

Moderated by Earl Saline,
Director of Education Programming, NSAA
Dr. Leslie Desrosiers, PT, DPT, OCS, CSCS, Owner, ACL STRONG Injury Prevention Training
Dr. Patrick Desrosiers, PT, DPT, OCS, SCS, CSCS, PES, Owner, ACL STRONG Injury Prevention Training
Kelsey Everton, Senior Manager, Health & Safety, Vail Resorts
Tom Jensen, OHST, Sr. Safety Consultant, Pinnacol Assurance
Susan Urbanczyk, CAE,
Director of Marketing and Communications, Professional Ski Instructors of America -
American Association of Snowboard Instructors

**Pyramid Peak**

Employee wellness programs are commonplace now, with areas of all size recognizing and embracing these programs, and potential employees looking for them. And, considering how tight the labor market is, areas need every person they can get. The benefits of these programs are many, including better employee health and fitness, reductions in the number and severity of injuries, and an overall reduction in costs related to employees that are not able to work. ACL Strong is one such program seeing success with its focus on knee health and prevention of knee-related injuries. This session will bring together representatives from ACL Strong, PSIA-AASI, Pinnacol Assurance, and ski areas to share their experiences putting this program into action and the successful results that are keeping employees out of the recovery room and on the snow.

**FURTHERING GUEST ENGAGEMENT: CONNECTING ENHANCED LEARNING TERRAIN TO TERRAIN PARKS**

Moderated by Mike Bettera, President and CEO, Effective Edge
Jeremy Cooper, Director of Mountain Sports Development, Boyne Resorts
Kevin Laverty, Effective Edge
Eric Lipton, Managing Director, Snow Operating
John Rice, General Manager, Sierra-at-Tahoe, CA

**Castle Peak**

From enhanced terrain to now Terrain Based Learning™, over the past two decades a great deal has changed. Yet ski schools and terrain parks have still not aligned to the benefit of our guests and the future growth of our sports. We must not miss the opportunity to create school and freestyle offerings that support each other and provide a more enticing beginner guest offering to attract new participation, retain them, and show an actual terrain park ROI.
SUSTAINABLE SLOPES 2020
Geraldine Link, Director of Public Policy, NSAA

Emigrant Peak
As Sustainable Slopes reaches its next decade, NSAA is taking the opportunity to refresh, refocus, and redesign the program for the benefit of our ski area members. Based on member feedback from a 2019 survey, Sustainable Slopes 2020 will pilot new requirements and new benefits for endorsers, including a new “pledge” to environmental stewardship within 10 priority topic areas, the chance to earn 10 “badges” that correspond to those priority areas, and a “Collaboration Portal,” which will include an online forum for mentoring and networking with other Sustainable Slopes participants. Finally, Sustainable Slopes 2020 will also include a Skier’s Responsibility Code to encourage guests to engage on sustainability and climate. Through these changes, NSAA hopes to create new momentum for the program, recognize higher levels of performance, and at the same time continue to encourage broad participation and efforts across the industry. This critical education session will explain elements of the new program and answer questions on how it will all work. Be sure to have your resort sustainability staff attend these winter education sessions so you can hit the ground running with Sustainable Slopes 2020!

WORK COMP INVESTIGATIONS
Moderated by William J. Curtis, Senior Vice President, National Sales, Resort & Recreation, Safehold Special Risk
Tom Jensen, OHST, Sr. Safety Consultant, Pinnacol Assurance
Greg Weaver, Health and Safety Consultant, Safehold Special Risk

Sponsored by Safehold Special Risk

Monument Peak
Investigations are a critical aspect of any worker’s compensation claim. No area or manager wants their employees to get hurt, on the job or otherwise. However, when someone does get hurt on the job, it is especially important to have a clear, easy to follow process for investigating and documenting the claim. Our panel of insurance and risk management will discuss the employee incidents that are driving claims, investigation tactics to help uncover the root causes, and strategies for preventing them in the future. Come to this session prepared to learn about and share your experience with employee claims, from slip and falls in the base area to on-snow collisions.

MORE THAN MONEY: THE FUTURE OF SKI INDUSTRY COMPENSATION, BENEFITS AND PERKS
Are you Still on the Magic Carpet in Supporting Your Employees’ Needs?

Pyramid Peak
Saralyn Crock, Area Vice President/Consultant, Gallagher
Laura Moriarty, SPHR, SHRM-SCP, Resort HR Partners

Are your best employees being recruited by other resorts or by employers outside of the ski industry? Compression has been created by mandatory state minimum wage increases and many resort operators are concerned that their long-held methods managing benefits, perks, base and variable pay programs are failing short of “what it takes” to compete. Explore the strategies and tactics your peers and Best in Class employers are using to attract and retain talent in an increasingly tight labor market. In this session you’ll learn from top consultants to the ski industry how to use forward-thinking benefit and reward strategies to attract, empower and meet your employees’ evolving needs. Using the most recent NSAA Wage and Salary Survey and ski industry-specific benchmarking data, this session will show how we compare to other business sectors and within the Total Rewards spectrum.

COMMUNICATING IN TIMES OF DISTRESS
Moderated by Gregg Blanchard, SVP Strategy, Inntopia
Tom Feiten, Squaw Valley | Alpine Meadows, CA
Rob Linde, Assistant General Manager, Arizona Snowbowl, AZ
Michael Reitzell, President, Ski California

Castle Peak
Operating a ski area is challenging enough considering the weather, location, economy, and business climate every area deals with. Any of these individually or in combination can disrupt your business, sometimes severely. Adding to the challenge is the continual increase in guest expectations for access and information. Ironically, clear and honest communications, while expected, are challenged or even mocked by our guests. When conditions outside of your control make it difficult or unsafe to operate, having a clear communication plan is critical. Our small panel of area marketers and communications people will discuss the challenging times and communication strategies that have (sometimes) helped them soothe our most critical guests.

HR ROUNDTABLE MEETING
4:30 p.m. – 5:30 p.m.
Silver Peak
Tuesday, January 14

NATIONAL CONSERVATION LEGACY AND EDUCATION CENTER
4:30 p.m. – 5:00 p.m.
Castle Peak
The National Museum of Forest Service History will provide a briefing on the development of the National Conservation Legacy and Education Center in Missoula, MT. It will highlight the opportunity and importance of sharing the rich history with the development of the ski industry and its partnership with the US Forest Service in developing world class ski resorts on public lands. This nationwide collaboration focuses on the important role the winter sports industry has to provide quality public recreation service and experiences across the America.

WELCOME RECEPTION IN TRADESHOW HALL
Sponsored by Leitner-Poma of America
4:30 p.m. – 7 p.m.
Grand Sierra Ballroom

Wednesday, January 15

NSAA REGISTRATION
7:30 a.m. – 5:00 p.m.
Grand Sierra Ballroom Foyer

FIRST TRACKS AND HOSTED BREAKFAST AT SQUAW VALLEY
7:00 a.m. – 10:30 a.m.
Join Squaw Valley and Alpine Meadows mountain managers for a hearty breakfast and exclusive First Tracks skiing and riding. Breakfast will be accessible for any passenger whether on foot, skis, or boards.

More information will be available at the NSAA registration desk.

Sponsored by AXESS, PistenBully, Wiegand Sports GMBH, and Wyssen Avalanche Control
**OPERATIONAL INTEGRATION:**
**BRING YOUR OPERATIONS SYSTEMS IN LINE**
Moderated by Earl Saline, Director of Education Programming, NSAA
Brandon Green, Snowmaking/Capital Dir., Telluride Ski & Golf Resort, CO
Ian Jarrett, Vice President, HKD Snowmakers
Charles Mickley, Business Relationship Director, TRISK
Josh Nelson, SNOWsat & PRO ACADEMY Product Manager, Kassbohrer ATV, Inc.
Nelson Santry, iSno Automation Product Manager, HKD Snowmakers
Joe VanderKelen, President, SMI Snow Makers
Garrett Will, Sales Manager Western USA, TechnoAlpin USA Inc.

**Monument Peak**
For many area managers, one of the biggest challenges is simply keeping up monitoring how different operational systems are working. Jumping back and forth between systems that don’t talk to each other (and aren’t designed to) can be frustrating, especially when you are trying to find critical information to help you run efficiently and make decisions. Understandably, companies design and build the backend technologies to support their products without really thinking about the other systems a ski area might use. However, times and expectations are changing. Without giving away proprietary information, companies are now introducing the means to integrate various operational systems, making it easier to synthesize and more efficiently manage operations. This session will feature a mix of area personnel and supplier members discussing why they are embracing this integration and the lessons they are learning along the way.

**STAFFING SOLUTIONS**
Moderated by Keith Pabian, Partner, Pabian Law
Frank Gerdesman, Director of Adult Education, Lake Tahoe Community College
John Rice, General Manager, Sierra-at-Tahoe, CA
Brian Rosser, J.D., Associate Professor of Ski Area Operations, School of Tourism, Hospitality, & Recreation, Colorado Mountain College
Heather Young, Executive Director of Human Resources, Telluride Ski & Golf, CO

**Castle Peak**
Areas of all sizes often struggle to find enough staff to fill all of the open positions for a winter season. And, if you do hire someone, there are further challenges in retaining that experienced staff. The lure of higher wages, benefits, and full-time work are hard to overcome, even when your area has the resources to put into training and development programs. Helping to fill this gap are several programs, including visa programs, accredited educational institutions, and others that are delivering educated and motivated people who want to work at ski areas. Our panel of regional education programs, visa experts, and resort personnel will discuss these strategies and other operational considerations to help alleviate the very real pain of being short staffed.

**RESORT RISK MANAGEMENT WALK-THROUGH**
*(OUTDOOR SESSION)*
Michael Gross, Director of Risk & Sustainability, Squaw Valley | Alpine Meadows, CA
Tom Scully, Loss Control Specialist, Safehold Special Risk
Tim Yates, Specialty Claims Adjuster, Safehold Special Risk

**Pyramid Peak**
*(session will depart from this room at 11:00 am)*
Stepping out of the classroom, this session will be conducted as a walk-through of the Squaw Valley base area. A real-life, in-the-moment case study, this session will walk through the base and common areas looking through the eyes of an insurance representative and the area’s risk manager. Get a first-hand look at a risk management walk-through, with the chance to ask questions and discuss particular points while they are fresh and right in front of you. Come dressed for the weather and be prepared to discuss parking lots, walkways, roof overhangs and signage. You name it— if it’s in the base area, this session will show you the little things that can make a big difference.

**GREAT GROUPS: SUCCESSFUL STRATEGIES THAT MERGE PHILANTHROPY AND GROWTH**
Moderated by Constance Beverley, Chief Executive Officer, Share Winter Foundation
Stephanie Arroyo, Director of Fund Development, Boys and Girls Club of North Lake Tahoe
Bill Henderson, Executive Director & General Manager, Sky Tavern, NV
Maggie Loring, Mountain School Director, Snowbird Ski & Summer Resort, UT

**Emergent Peak**
There are many ways to grow participation in snowsports, with kids groups being one of the prime opportunities available to virtually every area. Some of these groups are self-sufficient, but many more are not. They require guidance and help — sometimes financially. Philanthropy and growth are not mutually exclusive and there are effective strategies that areas have developed to help these groups and their kids succeed. Our panel with Share Winter Executive Director Constance Beverley and her partners will discuss what they have learned through their past efforts and the changes being made going forward. By being a proactive partner with your groups, you can be more than just a venue, you can become a trusted and reliable collaborator in growing participation for the long-term.

**LUNCH IN TRADESHOW HALL**
Sponsored by DemaLenko and PNP Supply
12:00 p.m. – 1:30 p.m.
Grand Sierra Ballroom
1:30 P.M. – 2:45 P.M.

EXPLOSIVES REGULATIONS, INSPECTIONS, REPORTING AND EMERGING TRENDS
(CLOSED SESSION, SKI AREA PERSONNEL AND INVITED PARTICIPANTS ONLY)

Jeff Goldstone, Mountain Manager, Alpine Meadows, CA
Geraldine Link, Director of Public Policy, NSAA
Bill O’Brien, Explosives Industry Liaison, Bureau of Alcohol, Tobacco, and Firearms
Sean Wetterberg, USFS Winter Sports Program Manager, USDA Forest Service

Sponsored by Wyssen Avalanche Control

Emigrant Peak
This session will combine NSAA’s traditional Winter Explosives Meeting with an in-depth look at explosives regulations and requirements relating to ski operations. ATF’s Bill O’Brien will address ATF inspections and reporting protocols, and US Forest Service’s Sean Wetterberg will address forthcoming agency explosives directives. Jeff Goldstone (NSAA Explosives Committee chairman) and Geraldine Link (Explosives Committee staff) will address ongoing efforts of the Explosives Committee in addressing emerging topics in the explosives regulatory arena and updates to the Avalanche Blasting Resource Guide. Snow safety, patrol, and mountain operations personnel are ideally suited for this educational presentation. (RESORT PERSONNEL AND INVITED PARTICIPANTS ONLY)

SUCCEED WITH YOUR HUMAN RESOURCES TECHNOLOGY

Blake Mosher, HR Technology Practice Leader, Gallagher Benefit Services
Matt Troskey, Vice President for People & Learning, Mt Hood Meadows & Cooper Spur Mountain Resort, OR

Pyramid Peak
Have you ever wondered if you are asking the right questions when evaluating HR technology? As the tech landscape continues to evolve and innovate, it has become more difficult for organizations to differentiate capabilities in a crowded marketplace. The topics will include the current state of HR tech, how to develop your decision making criteria, considerations for the evaluation process, how to avoid the common pitfalls in implementation, and how to optimize your investment. Learn from technology consultants and ski resort HR leaders’ personal experience with the HR tech procurement process and set yourself up for implementation success!

CHAIRLIFT INCIDENTS AND CLAIMS
(CLOSED SESSION, SKI AREA PERSONNEL AND INVITED PARTICIPANTS ONLY)

Thomas Aicher, Principal, Cleary, Shahi & Aicher
Jordan Lipp, Attorney, Managing Member, Childs McCune Attorneys
Steve Parminter, Partner, Wilson Elser
Mistica Walker, Specialty Claims Adjuster, Safehold Special Risk
Tim Yates, Specialty Claims Adjuster, Safehold Special Risk

Sponsored by Safehold Special Risk

Monument Peak
Lift incidents and resulting claims impact ski areas of all sizes—from small mom-and-pop resorts, to large destination resorts. As some of the most common types of claims that affect ski areas, even less serious incidents can lead to potential regulatory oversight. And while new technologies will certainly lessen these risks, it they are not the only option. We will examine recent claims, how to minimize those incidents pre-loss, and ways to maximize your legal position post-loss. Join our panel of resort personnel, insurance representatives, and others as they discuss current and past lift-related incidents and what you can do to help prevent these from happening at your area. (RESORT PERSONNEL AND INVITED PARTICIPANTS ONLY)

ONE MORE DAY: ENERGIZING THE CORE

Kelly Pawlak, President and CEO, NSAA
Liz Mezzetti, Director of Marketing, Olympic Regional Development Authority
Rob Perlman, President/COO, Steamboat Ski & Resort, CO
Jon Rucker, President, HEAD/Tyrolia Wintersports
Ryan Schramm, General Manager, Powderhorn Mountain Resort, CO

Sponsored by Liftopia

Castle Peak
Energize the Core is a small group formed from the Growth Committee. Knowing that 65% of national skier visits can be attributed to the core skier/rider, over 4 million core participants, this group has been focused on imagining the energy that could come from getting our best fans to ski one more day each season? This session will help you understand who your core skiers are and the knowledgeable panel will share useable ideas to get your core customers to ski one more day. Come and learn how to unleash the power of a core participant.
CRITICAL INCIDENT MANAGEMENT: TAKING CARE OF YOUR EMPLOYEES
Kathy Chan, Vice President of Human Resources, JMA Ventures LLC
Karin Sable, MA, Licensed Marriage & Family Therapist

Emigrant Peak
Critical incidents are particularly powerful, sudden and negative events that have a great potential to overwhelm people’s normal coping skills. These events, while not common, do happen in the ski industry due to the inherent challenges with managing snow and large numbers of people. Significant on-hill incidents, equipment failures, avalanches, and active shooters are all incidents that can and have occurred at ski areas. For these events, there are several layers of response to consider after the first responder manages the incident. This talk is about managing what comes after the first response, particularly the psychological processing of the critical incident by your employees. Come learn about critical incident management from the perspective of aiding and assisting your employees as they recover from a critical incident. The focus will be on understanding the acute psychological incident response and illuminate a path forward that can help aid healthy processing for your employees.

MOVING THE NEEDLE: TACKLING THE PERCEPTION ISSUE
Moderated by Dave Gibson, Propeller Media
Gregg Blanchard, SVP Strategy, Inntopia
Matt Peterson, VP Marketing/Brand Management, Boreal Mountain Resort, CA
Jon Slaughter, Executive Director, Marketing, Sugar Bowl Resort, CA

Castle Peak
We hear the phrase “perception is reality” often. Because it’s true. Perceptions influence how we interpret reality. Perceptions also drive decisions for ourselves and our families. Our challenge is that the perception outside our bubble is that skiing and riding is “too dangerous, too difficult, and only for rich white people”. If we want growth, we need to take control of our story and shape positive perceptions. We have an extremely attractive product that delivers memorable experiences that invigorate and connect people. We have stories that are visually stunning, authentic and relatable. We also have new channels and sophisticated methods for delivering our stories so that they reach our target audiences with amazing accuracy, affordably. In this session Dave Gibson will put us into the shoes of our target audiences, and through their lens show us what perceptions need to look like to attract never-evers and lapsed skiers and riders. And together with a panel of industry leaders, they will discuss how we can shape positive perceptions and enable growth.

Thursday, January 16

PSIA-AASI NATIONAL SNOWSPORTS MANAGEMENT SEMINAR
8:30 a.m. – 4:00 p.m.

Emigrant Peak
Hosted by the Professional Ski Instructors of America and the American Association of Snowboard Instructors, this added day one-day seminar will dive deep into all snowsports management topics and trends impacting the industry. Attend this session and be immersed in a collaborative environment where industry professionals will provide specific examples of snowsports mismanagement. You’ll work together with your peers to find collective answers. Blending indoor and on-snow content, this seminar that’s led by two top PSIA-AASI National Team members, Matt Boyd and Ann Shorling, gives you training on the Learning Connection Model so you can ensure your snowsports school teams have the teaching and people skills they need to better connect with your resort guests. The $90 event fee provides you with access to the one-day session, a one-day lift ticket, and six continuing education credits. Register in advance online or on site.
